## A G E N C I E S

### ABOUT US

Kalpatharu Agencies has grown into a trusted name in the field of printing, packaging, and post-press solutions. With more than 2 Decades of industry experience, we specialize in supplying high-quality products tailored to meet the evolving needs of our customers.

We are actively engaged in serving the printing & packaging, corrugation, FMCG, footwear, Textile, Automotive and Pharma industry, and corrugated sectors, providing a wide range of reliable and performance-driven solutions. Our core expertise lies in water based adhesive, Food Grade & Barrier Coatings, Inks related materials, ensuring superior finishing and production efficiency.

At Kalpatharu Agencies, we are committed to:

- Delivering consistent quality products
- Building long-term customer relationships
- Offering timely supply and dependable service
- Supporting our clients with technical knowledge and market expertise

With a strong market presence and customer-focused approach, we continue to expand our reach while maintaining the highest standards of professionalism and trust.

### OUR BUSINESS ASSOCIATES

# OUR PRODUCTS

## LAMINATION ADHESIVES (WET LAMINATION / DRY LAMINATION)

- It is used to laminate BOPP Gloss, Matt film, PVC, Met Pet Paper and Board.
- Dry Lamination adhesive is also available for high - speed machines with quick drying.
- Enhance Production Speed and Quality
- Compatible with various printing application including packaging, cartons, labels and commercial prints.

## CARTON PASTING ADHESIVES

These adhesives are used to give permanent bond. These adhesives can be applied manually or with the help of wheel applicators or sometimes with nozzle applicators.

- Eco-friendly adhesives for Manual application
- Fast setting adhesives for Wheel application
- Anti-Choking adhesives for Nozzle application

## PAPER CONVERTING ADHESIVES

Wide range of products in water based adhesives, we also cater to many specific paper converting application like

- Paper Bag
- Paper Straws
- Ripple Paper Cup
- Corrugated Box
- Cigarette
- Honeycomb Packaging
- Flute Lamination
- Envelope
- E-Commerce Bags

## CONTACT ADHESIVE

It is a high-performance bonding solution designed to deliver instant, powerful adhesion when two coated surfaces come into contact after partial drying. Engineered for speed and strength, it forms a uniform, durable bond without the need for prolonged pressure or curing time.

- Lamination Works
- Furniture Industry
- Footwear Manufacturing
- Automotive Interiors
- Packaging & Foam Industry
- Leather & Upholstery

# OUR PRODUCTS

## PRESSURE SENSITIVE ADHESIVES (PSA)

We have a variety of PSA's ranging from permanent to peelable. We offer the following types of PSA's.

- Permanent PSA's for the general labeling application
- Deep freeze PSA's for cold condition application
- Removable PSA's for peelable application
- Clear PSA's for "No - label - look" applications (Filmic Label)
- Permanent and Peelable (PSA) for various tape applications
- APEU and Phthalate Free Labels.

## PRINTING INKS

- Conventional Offset Inks
- UV/LED Inks
- Waterbased & Solventbased Inks

Application : Offset, Flexo, Gravure & Corrugation

## AQUEOUS OVERPRINT COATINGS

- Aqueous Varnish & Primer
- High Gloss Coatings
- Matte Coatings
- Satin Coatings
- Playing or Game Card Coatings
- Primers Coatings for UV and Film Lamination
- Neutral Coatings
- Ink Duct Coatings

## UV & LED COATINGS

- Drip Off UV Coatings
- Texture UV Base Coat
- High-Gloss UV in-line / Offline Paper & Board Coatings
- Ink Duct UV Coatings
- Matte UV Coatings

# OUR PRODUCTS

## BARRIER COATINGS

Barrier coatings are the most suited sustainable solution to replace polycoated laminated board, waxcoated, PCDC coated etc all non sustainable alternatives. Barrier coat is recommended for paper cup, trays, foodtrays, pizza boxes, ice cream cartons etc.

The special product features are.

- Low COBB
- Good oil and grease resistance
- Good Moisture Vapour Transmission rate
- Good heat sealing performance
- Good water resistance
- Low odour
- FDS compliance

## WATER - BASED HEAT SEAL COATINGS

- Eco-friendly-minimal environmental impact
- Low VOC - complies with environmental and safety regulations
- Odorless / Low odor - suitable for food and pharma packaging
- Good heat seal strength
- Excellent adhesion on paper, board and films
- Non-toxic and safe for food contact (subject to grade)
- Suitable for high-speed coating and sealing processes

## BLISTER VARNISH

It is suitable for Coatings of cards for blister packaging of variety of consumer of industrial products like Twin Edge Razor Bladers, Shaving Brush, Toys Staple / Staples pins, Auto Components, Electronic spare parts & most of other items, which heat sealing of coated surface with rigid PVC / BOPP with this varnish.

- High Bonding & Fast drying
- Cost effective
- Time saving
- Higher coverage
- Excellent Bond Strength
- Even Coating & High Bond With Moderate Coverage
- Fast Drying
- High Gloss and Premium Quality
- Low Viscosity
- Excellent Binding with High GSM coated paper
- Crack & Breakage Free
- Cost Effective
- Shinning
- Great Machinability

## SPECIALITY FILMS

- BOPP Films
- PET Films
- PVC Films
- Nylon Films
- Metalized Films (METPET)
- Thermal Films
